à 7.500 rpm à 6.000 rpm

Powerful and efficient engine

This ATV is equipped with a 177.3 cc single-cylinder engine that delivers a maximum torque of 10 N·m @ 6,000 rpm and a power output of 9.86 Hp @ 7,500 rpm.

Oil cooler

Reduces the engine's operating temperature and extends its lifespan.

Transmission with reverse gear

The automatic CVT transmission offers smooth, continuous acceleration and fuel savings, while its reverse gear—activated by a lever—improves maneuverability.

Rear disc brake

The perforated disc provides more precise braking thanks to faster cooling.
